Could Europe defeat the US in a war like WWII? Why or why not? Does no one on Quora pay attention to logistics? Sure, if you were to line up the current militaries opposite each other in an all out winner takes all with what you bring to the table, then yes, the US military would most likely win. But that isn't the question. WWII was in Europe and Asia. In order for the US to win a war

South America - Wikipedia

Continent model: In some parts of the world South America is viewed as a subcontinent of the Americas (a single continent in these areas), for example Latin America, Latin Europe, and Iran. In most of the countries with English as an official language, however, it is considered a continent; see Americas (terminology).
