Eichengreen, B.: Globalizing Capital: A History of the ...

Globalizing Capital shows how these and other recent developments can be put in perspective only once their political and historical contexts are understood. Barry Eichengreen is the George C. Pardee and Helen N. Pardee Professor of Economics and Political Science at the University of California, Berkeley.

Globalizing Capital: A History of the International ...

Globalizing Capital is a good introduction to the international monetary system, and a decent review for the already familiar who want to revise their knowledge. The book begins in the mid nineteenth century, and examines the problems of bi-metalism (the linking of the value of silver with gold) and the linkage with metal and paper money.
