The Blank Slate - Wikipedia

The Blank Slate: The Modern Denial of Human Nature is a best-selling 2002 book by Steven Pinker, in which the author makes a case against tabula rasa models in the social sciences, arguing that human behavior is substantially shaped by evolutionary psychological adaptations.

The denial of nature: environmental philosophy in the era ...

The Denial of Nature is comprised of four long, dense yet readable chapters sandwiched between an introduction and a conclusion. Verlesen's starting point is the fact that environmental philosophy has grown in size and prominence during a period when the natural world has lost ever more of its naturalness due to human activities. One might surmise that this simply reflects the limited role
